The News.

Arrangements have been made, it is stated, on good authority, to establish a direct system of transportation between New York and St. Petersburgh via Hamburg, at low rates of freight. This is a matter of no small importance in a commercial point of view.

Various items of interest will be found in our telegraph columns, including proceedings in Congress, Washington matters, &c.

Our New York market reports exhibit no alteration in prices of breadstuffs. There is a good demand for both wheat and pork in our market, and, as will be seen by our commercial report, they are both commanding fair prices.

The weather yesterday afternoon became quite cold, and the wind being in the North-west, we may look for an old-fashioned freeze.

Dr. Carr's Examination.—In company with about one hundred others, we attended Dr. Carr's examination in Chemestry, at the University, on Friday last. This examination is always the centre of interest upon examination days, and is attended by a large number of our citizens. As a lecturer on his favorite topics, Dr. Carr has no equal in the West, and as a teacher he is equally eminent. Dr. Carr's method of instruction is quite original—he makes the students teach the studies themselves—each day repeating the lecture and experiments of the day preceding, thus giving them, together with the knowledge, the no less important art of communicating it. The students, on examination, have topics assigned them which they discuss in their own way, selecting and performing such experiments as they see fit, and thus the public can perceive at once the real acquaintance they have with the studies they have been pursuing. On this occasion the class all did well,—remarkably well, and the untiring interest which all the spectators manifested for nearly three hours, proved how thoroughly Dr. Carr had done his work of instructing, and how successfully the pupils had attended to his teachings. To Dr. Carr the University is indebted more than to any other man for its public sympathy and widening influence.—*Madison Argus, Dec 20th.*

We heartily endorse all that the Madison *Argus and Democrat* says, in praise of Dr. Carr. He is one of the bright lights of our State University, and is not only a proficient in his favorite science, but possesses the faculty of communicating to others the knowledge which he himself has acquired.

The Governor-General of Canada and the Tyler Case.—The following letter has been transmitted to the Cleveland Board of Trade by the Governor-General Head of Canada, in response to the memorial sent to him by that body in the case of Deputy U. S. Marshal Tyler:

Secretary's Office, Toronto, 11th Dec., 1858.

Sir:—His Excellency the Governor General of British North America has to acknowledge the receipt of the petition of the 4th inst., addressed to him by the Board of Trade of Cleveland.

His Excellency is already in possession of depositions which establish the main facts of the case, and it is his intention to take all such steps as may be necessary to ensure the due and impartial administration of justice in Canada.

C. Alleyn, Secretary.

Sleeping Cars from Chicago to New York.—We understand that arrangements have been made, whereby passengers for New York can now go through without loss of sleep or time.—The routes via Michigan Central or Michigan Southern and New York Central Railroads are now supplied with sleeping cars, and the time-tables are so arranged that the passenger gets the benefit of a full night's rest. This arrangement applies to all through trains. We notice, by the Albany and Buffalo papers, that the New York Central Railroad Company have ordered eight additional cars, in order to keep pace with the increasing demand for their use.

Three Children Burned to Death at Davenport, Iowa.—The house of Richard Dutton, a journeyman tailor, at Davenport, Iowa, was burned on Tuesday afternoon, and two of his children, a boy of six, and a girl of four, burned to death, and an infant so badly burned that it was not expected to live. Mrs. Dutton locked the children in, and went to a neighbor's for milk. There were shavings on the floor, and it is supposed they got playing with them, and set them on fire. When the fire was discovered, the neighbors never thought of breaking down the door, to let the children out, but ran off to hunt Mrs. Dutton, and get the key—meantime the roof fell in.

Mr. Morphy Sustained by the English Chess Players.—At a special meeting of the Manchester Chess Club, it was resolved: "That this meeting, while recognising Mr. Staunton's right to decline any chess challenge which he might find inconvenient and incompatible with his other engagements, deems it proper to declare its full concurrence in the opinion expressed by Lord Lyttleton in his letter to Mr. Morphy of the 3d inst., that in all fairness and considerateness, Mr. Staunton should have told Mr. Morphy long before he did, that he declined the proposed match."

Butchering in the City.—This outrageous business is carried on to a considerable extent in our city, notwithstanding that there is a law making it a criminal offence punishable by a heavy fine or imprisonment. Scarcely a week passes that some delinquent butchers are not arrested for violating this ordinance, but by some circumlocution arrangement they *always* manage to escape unwhipt of justice, and the consequence is that they continue to violate the law with impunity. It usually happens that they are conveniently out of funds, and are let off upon judgments, which are never collected, or else if one *does* happen to pay the fine occasionally, the Common Council goes to work and very deliberately undoes what the officers of the law have done, by remitting the penalty and leaving the city to pay the costs!

We are informed upon pretty good authority that no fine has ever yet been imposed by the Police Justice for this offence, and collected, which was not afterwards remitted. We hope that this kind of child's play will end some time, and that those men who disregard the law and jeopardize the health of the city, may receive their just deserts.

Yesterday a case of this kind came up in the Police Court. The offender was a butcher named Frederick Thied. He was charged with direct violation of the ordinance by keeping a slaughter house within the city. He demanded to be tried by a jury. The evidence was unquestionable and a verdict was rendered against the defendant, who was fined $50 by the Police Justice. The butcher swears some, talks of appealing the case, is let off on his own recognizance without paying the fine, and goes home in all probability to resume his slaughtering. Here ends the matter.

Free Tickets on Railroads.—The Cleveland Railroad Convention, in adopting a system of free passes, recommend that "free tickets" shall be issued to such newspaper editors as will publish, free of charge, in each issue of their paper, the time of arrival and departure of every train coming into and leaving the place where the paper is published. At a low estimate, such an advertisement would cost in a daily paper about three hundred dollars a year.

And yet, though our Rail Roads here have adopted no such "system of free passes," the Daily papers of our city publish, in every issue, the hours of arrival and departure of every Rail Road train which comes to, or leaves Milwaukee. This they do as a matter of public convenience and accommodation.

Hoops, High Heels, False Hair and Matrimony.—An act was introduced into the English Parliament in 1770, "that all women, of whatever age, rank, profession or degree, whether virgins, maids or widows, that shall from and after such act, *impose upon, seduce* and betray into matrimony, any of his majesty's male subjects, by the scents, paints, *cosmetic washes, artificial teeth, false hair*, Spanish wool, iron stays, hoops, high heeled shoes, bolstered hips, shall incur the penalty of the law now in force against witchcraft and like misdemeanors, and that the marriage, upon conviction, shall stand null and void."

Church Festival.—We understand that there is to be a Festival and Concert at the Welch Congregational church, on Jefferson street, near the corner of Michigan, Christmas night; the proceeds of which are to be applied towards paying for the new edifice, which this congregation have recently erected. The festival will be in the shape of a tea-party, after which some excellent pieces of sacred music will be sung. It will be a pleasant re-union, and we hope that it may be successful in a pecuniary point of view.

Examination at the Milwaukee High School in the Second Ward.—The examination at this school, commenced on Tuesday, and will continue until Friday afternoon at four o'clock. Although the school has been in session but a few months, the Principal and associate teachers are desirous that the patrons of the Second Ward High School, parents and friends of Education in general, may witness the examinations and see what has been done, in educating the youth, even in a short time, and under disadvantageous circumstances.

Detroit and Milwaukee Rail Way—Return of the Milwaukee Belle.—The *Milwaukee Belle* arrived yesterday from Grand Haven, in tow of the *Notter*, with a cargo of 230 tons merchandize of all descriptions. She will go out again this evening, taking 2,000 bbls flour, 1,000 bbls pork, and a quantity of other goods. Mecklem House, Ozaukee.—The "Mecklem House" at Ozaukee, or Port Washington, kept by G. F. Mecklem, Esq., is a capital country tavern, and in great favor with the travelling public. A grand entertainment is to be given there, on New Year's Eve, and it will, no doubt, be a most successful affair.

The Athenæum—A Star.—Mr. Alexander Burger, an actor of considerable repute, commences a brief engagement at the *Atheneum* this evening. He makes his first appearance as *Sir Giles Overreach*, and will do justice to the character.

Board of School Commissioners.—A special meeting of the Board of School Commissioners will be held at their room in Excelsior Block, *this* Wednesday evening, at 7 o'clock.—Business of importance will be brought before the Board.

City and County Orders.—J. S. Fillmore pay cash for City and County Orders. tf

After the presentation and usual reference of accounts, petitions were presented for the remission of taxes on personal property, as follows:

By Councillor McGrath from Geo. Haywood,
do Bond do A. F Clark,

By the Chair, from C. A. Clark, M. Littauer and Sigmund Backman.

By Councillor Waldo, from Geo. Dousman (for Dousman & Co.) which were collectively and severally referred to the Committee on Taxes.—Several other petitions relative to remission of taxes were presented and appropriately referred.

Councillor Kroeger presented a petition from N. Tompkins and others, owners of property in the Fifth Ward, in which they represent that a tax assessed upon the lots adjoining Mineral street, between Monroe and Clinton, for the construction of a sewer, was unjust, and pray that the cost of the same be charged to the Fifth Ward, as provided by a special act of the Legislature.

On motion of Councillor Kroeger the proposition was referred to a special Committee of five.

The Chair presented a communication from M. H. Tyler, tendering to the Common Council a new map, of the City and County of Milwaukee, and asking the Council to purchase as many copies of the map as they thought proper, which was referred to the Committee on Finance.

The resolutions and other measures adopted by the other Board on the 13th, were taken up and acted upon as follows:

A resolution that an allowance of $3,00 be made to John Larcelle, in part payment for furniture delivered for the use of the 2nd Ward School, was concurred in; also a resolution requesting the Harbor Committee of both Boards to make a personal examination of the Harbor and see if in their opinion any protective work is needed on the beach, South of the Straight Cut; also a resolution authorizing the City Comptroller to issue to John Spuhler two Street Commissioners' certificates in lieu of two others lost; also resolutions extending various grading contracts, with the exception of that of H. Nunnemacher which was referred to the Joint Local Committee of the 7th Ward; also a resolution that the Comptroller be instructed to draw on the Treasurer to the amount of $2,700 for payment of a balance due on a certain note held by Messrs. Meigs and Greenleaf, of New York.

The chair presented a communication from the Comptroller, together with the report Clinton Walworth, Police Justice, for the quarter ending July 9th, 1858, of cases in which the city was interested, from which it appears that the amount collected in said court for the quarter is $1,053 10
From this deduct, amount paid for salaries, 712 83

Leaving a balance due the city of $340 28

Councillor Waldo presented a petition from Johanna H. Jonch, for remission of a special tax, which was referred to the Local Committee of the Ninth Ward.

Councillor Waldo, from the Joint Local Committee of First and Seventh Wards, to whom was referred the petition of James Phelan and others, asking the Council to order a re-survey of Jackson street, north of Division, and to establish the east line thereof on the old line, presented a lengthy report, which concluded with the recommendation that the matter be indefinitely postponed, which was concurred in.

Councillor Lapham, from the Finance Committee, to whom were presented several bills from the Commissioners of Survey, for services rendered to the city, reported back the same without action, and recommended their reference to the Judiciary Committee, which was concurred in.

An ordinance entitled an ordinance permanently to establish the grade of certain streets in the Sixth Ward, was called from the table, and after receiving its third reading, passed.

A few other matters of no special interest were brought up, when the Board adjourned.

For the Sentinel.

An Unfounded Accusation.

Mr. Editor:—In a recent communication from two physicians of this city, in which they attempted to reply to an article from the pen of Dr. Douglas, and in which, for want of argument, they descended to low scurrility and abuse, charges were made, which, had they originated with them, would not be worthy a moment's notice, but as they are repetitions of false charges which have been industriously circulated for several years, by certain members of his profession of a different school, who have in vain sought to build themselves up by his downfall, I take this opportunity, in justice to Dr. D., to lay before the public a true statement of the facts.

When the subject of spiritualism first began to agitate the public mind, Dr. D. in a philosophic spirit, fully investigated the manifestations purporting to be produced through the agency of disembodied spirits, and having satisfied himself that they could not be explained by any of the toe or knee snapping theories, prepared and published the first scientific explanation of those phenomena, and long before the same ideas were promulgated and defended by President Mahon, in whose work there is not a single idea but that had been previously published by Dr. D.

He has also delivered three public lectures on this subject, one of which was before a large and intelligent audience in this city, including many of the most prominent clergymen, several of whom expressed their perfect satisfaction at the manner in which the subject was explained, and the claims of a spiritual origin to the manifestations disposed of. He also wrote a criticism upon the work by Judge Edwards, which the Judge has promised repeatedly to reply to, but has failed to do so.

But Dr. D. being too liberal a man to quarrel with those with whom he was connected in business and who entertained an honest difference of opinion upon this subject, their opinions have been by some persons erroneously imputed to him. We challenge any person to prove that Dr. D. has ever believed or advocated the spiritual theory; on the contrary he has, both in public and private, done more to effectually oppose it than any man in the State. MEDICAL DISCOVERY.

ALLEN'S SPECIFIC POWDERS.—The Proprietor, a Physician, having resided in the East Indies for upwards of fourteen years, with considerable study, and perseverance after Medical Science, discovered a vegetable product of nature, which possesses extraordinary virtue, and exerts an influence hitherto unknown in the animal economy.

A solid extract from this plant (which is indigenous to China, but grows also in India,) prepared in the form of powders, will aid and assist nature, when apparently defective, and remove the cause of *sterility* in married ladies, or females, from the age of 25 till upwards of 40 years.

The Physician, being a Botanist, while in China, as a Medical Officer during the late war, discovered the active principle of the plant, which invariably invigorates the whole system without producing any deleterious effect, on the contrary, it will restore a weak and debilitated constitution to health and strength. Thus, renewing and fortifying the frame towards the desired object.

The married portion of the female sex having no offspring, can procure packages of this invaluable medicine from the proprietor, Doctor Allen, or Mary Allen, at his office, Grove street, Fifth Ward, first house south of Fire Engine No 7, or from his agent, Mr. E. A. Lee, Druggist and Apothecary, No. 169 Main street, Milwaukee.

Printed instructions and directions for the use of the medicine will accompany each package, with the written name of the proprietor, to prevent the possibility of any empiric forging his signature.

The genuine medicine can only be procured in Milwaukee, from the Proprietor or his Agents, by applying for it at their residences or by letter enclosing one dollar for each package, which will insure the safe transmission by post to any part of the United States, or elsewhere, to the address of the purchaser.

Doctor A. will attend patients as Physician and Surgeon for one dollar each visit within the precincts of Milwaukee. And will give medical advice free, at his residence, from 9 till 11 o'clock every morning, Sundays excepted.

BY MAGNETIC TELEGRAPH

Congressional Proceedings.

Washington, Dec. 21.

House.—Mr. Phelps, of Mo., from the committee on Ways and Means, reported a bill making appropriations for the consular and diplomatic service, and for the support of the army.

Mr. Kellogg, of Ill., asked, but did not obtain leave, to introduce a resolution instructing the committee on Territories to report a bill providing for the election of local officers in all organized Territories by the people. They to pay the expense of government, and granting lands to actual settlers; providing that a State constitution may be formed when there is population enough for one representative to Congress. The same to be submitted to the people for ratification.

Mr. Kavanaugh, of Minn., introduced a bill to organize the Territorial government of Dacotah.

The House then went into committee of the whole on the soldier's pension bill.

A number of amendments were offered, debated and rejected.

The enacting clause of the bill was then stricken out, by 6 majority, and had the effect, as was intended, to terminate further proceedings thereon in committee, and bring the bill into the House.

The Speaker, in reply to a question, said if the House concur in the recommendation of the committee to strike out the enacting clause, the bill will by this be defeated.

The question was decided in the negative by ayes 75, nays 129

Mr. Savage, of Tenn., offered a substitute, which was agreed upon by caucus last night, for the bill proposing pensions to all who served 60 days or more, or were engaged in actual war of 1812, or during that period. The benefits of the act are extended to the marine corps. In the event of the death of a pensioner, his widow is to receive the pension during her natural life. The pensions are graduated as follows: For 12 months service and upward, $95; for 6 months and upwards, not 12 months, $75; and for 60 days and upwards, not exceeding 6 months, $50 per annum.

Mr. Fenton, of New York, offered a substitute, providing that the pensions which have been or may be given to various classes of persons shall be considered to commence with the time of their wounds or other disabilities, and be calculated according to the existing pension laws. In case of the death of the pensioner, his widow or children or next of kin to receive the pension.

Mr. Fenton's substitute was rejected by 2 majority

Mr. Savage's substitute was agreed to by 132 against 61.

Pending the question on the passing of the amended bill, the House adjourned.

Senate.—Various memorials of no public interest were presented.

The Senate passed the bill making an appropriation for the improvement of the St. Clair Flats, by ayes 29, nays 22.

The Pacific Railroad bill came up.

Mr. Seward, of New York, addressed the Senate. He began by saying the descendants of the Dutch colonists of New York, keep forever bright the memories of their father-land. When, however, he travelled in Holland, he could hardly find there one lingering tradition of the settlement of New Netherlands. It was always so. The affection of the emigrant for his native country is ever stronger than the sympathies of that country for its exiles. The Senators of California, as yet only representatives here of society on the Pacific coast, are committed to this great measure and earnest in its support. So he hoped that if his arguments in response to them seemed addressed to the Senators from the Atlantic States, they would do him the justice to reflect that it is only on this side of the Rocky Mountains that the snow and ice of indifference and prejudice resist conviction.

Mr. Seward would not say much concerning the details to prescribe the route and the policy of constructing a Pacific Railroad now. He would choose a path which would be a continuation of the road that our great north-western emigration has hitherto followed. He would discard all employment of companies and all grants of public lands, and would build the road as a military post road, national highway, with the money and credit of the federal government, and surrender the lands along its route to actual settlers, free of cost. He would increase the revenues by an increase of imports, and create the sinking fund to abolish gradually the public debt. But he had concurred in pressing this bill because it was the only alternative. He admitted that there were many objections for which the bill was obnoxious, but the time for deliberation has come to an end, and that for action is to begin. He being in earnest in this desire for a Pacific Railroad, he would accept the bill.

Mr. Seward then answered successively, the general objections against the construction of the Road. Commerce is only an incidental interest, in connection with the Road. It is wanted first and chiefly for Postal and military, that is to say, for political purposes. It is a grand error to rally on commerce for such highways, in territories where society has to be called into existence, or that they can be dispensed with till society is created. The treaty of Guadalupe Hidalgo extended the national jurisdiction across the Rocky Mountains, to the Pacific, and from that moment a necessity for postal and military highways, across, was disclosed. Our contentions in Utah, Central America and Mexico, and with France and England, are legitimate consequences of the reliance on routes through foreign bounties, instead of their own. Mr. Seward continued at considerable length.

Mr. Ward then addressed the Senate in favor of the Texas route. His remarks were indistinctly heard.

Mr. Wilson, of Mass., moved an amendment that the road shall be between the parallels of 24 and 43.

The debate was postponed until to-morrow.

Mr. Seward, of New York, offered a resolution directing the committee on the Judiciary to report if further legislation is necessary to stop the slave trade. Mr. Davis objecting, it was lost.

Mr. Doolittle, of Wisconsin, offered a resolution, which was adopted, calling for the letters between the President of Nicaragua and Commodore Paulding, if there be any such in the Navy Department.

On motion of Mr. Seward, the Secretary of War was requested to inform the Senate if any land in New York has or can be had for revenue purposes.

Mr. Davis, of Mass., offered a resolution which was adopted, calling on the Secretary of War for information respecting the rights of British subjects in Oregon.

Mr. Bright, from the building committee, reported that the new Senate Chamber will be ready for occupation on the 4th of January.

The President sent, through the Secretary of State, part of the correspondence of Robert Mechem and Dr. Parker, ex-Ministers to China.—He withholds a portion of the correspondence on account of pending negotiations.

A bill was passed to advance Hiram Powers, $2,500 for statuary.

The Senate then went into executive session, and on the opening of the doors adjourned.

Later from Havana.

New York, Dec. 21.

The steamship Black Warrior arrived this evening, from Havana the 10th.

Sugars dull and will remain so until the Holidays are over; market firm at 9¾ reals for No 12; stock in market not exceeding 30,000 boxes including Metanzas.

Molasses—New clayed on the coast has sold at 4 reals and Muscovada 5 reals per keg.

Exchange—Firm on London at 13c premium.

Freights—Nothing doing for Europe, U. S. looking up.

Senator Douglas stopped at Havana.

The Spanish Mexican imbroglio is settled.—Gen. Gaza, of Tampico, having refunded all the money obtained from Spanish subjects, by way of forced loans, and the present Government of Mexico having acceded; to all the demands made by Spain. The Spanish flag was saluted by 21 guns from the forts of Tampico.

The Spanish frigates Fardlina and Isabella had arrived, with over 2,000 soldiers, from Spain.

Southern Pacific Railroad.

New Orleans, Dec. 21.

The Southern Pacific Railroad Convention met yesterday at noon. President Foulkes reported that $230,000 had been already provided, for the relief of the company's debts. He says that not one half of the stockholders have been heard from, and that the required amount would undoubtedly be raised by the middle of January.

The Memphis and El Paso road desires to unite interests with the Southern Pacific.

Toronto, Dec. 21.

The Government Inspector has ordered the stoppage of the Northern Railway, as unsafe for passengers. Freight trains with passenger coach attached, however, will be continued, at reduced speed. Considerable excitement is manifested along the line of the road, in consequence of this action.

New York Matters.

New York, Dec. 21.

It is rumored that circumstances have lately transpired which will place Geo. W. Matsell once more at the head of the Police in this city. It is stated that certain copies of papers and records of his former dismissal, which, it is alleged, were in the possession of the Police Commissioners, cannot be found, though search has been made for them high and low.

The Tribune correspondent says that Senor Mata, the Mexican envoy, informs our Government that he is fully empowered to negotiate a treaty in behalf of Juarez, which shall make a cession of territory to the U. S.

Mr. Conner, U. S. District Attorney of South Carolina, is at Washington, at the request of the Administration. It is said, for the purpose of devising some measures to suppress the slave trade on our southern coasts.

The Tax Budget was sent to the Common Council last evening. It calls for nearly eight millions of dollars.

Washington Matters.

Washington, Dec. 21.

Official advices received from Hamburg state that the proprietors of the steamers between Lubec and St. Petersburg, have made arrangements with those running between Hamburg and New York, by which they propose to establish, at low rates of freight, a direct system of transportation from New York to St. Petersburg, via Hamburg and Lubec. The facilities now combining will enable them to forward goods from New York to St. Petersburg every fortnight during the season that navigation is open, and the transit will consume but three weeks of time.

It is also stated that the arrival at Hamburg of the schooner Harvest from Sandusky City, Ohio, caused much surprise and gratification, and that her cargo of valuable forest wood brought a fair price at auction.

The association called the Mexican and Central American Colonization Association, is said to be widely ramified throughout the country, comprising already 2,000 names, and including many persons of influence and wealth. Their proceedings are enveloped in mystery. It is reported that Gen. Henningsen has been selected to carry out their plans, or has at least had an offer to that effect.

The Fillibuster Expedition.

Mobile, Dec. 21.

It is stated here, on the best authority, that the schooner Susan sailed for Nicaragua, with the firm determination, on the part of the leaders of the expedition, not to allow the British or any other foreign power to stop them, without resisting until blood was drawn. Their purpose being to test the disputed points of international law, or compel England to make an early exposure of the grounds of her assumed protectorate over the San Juan River and the adjacent territory.—It is thought probable, however, that they will not fall in with any vessels of war whatever.

Gas Explosion—Loss of Life.

Lowell, Mass., Dec. 20.

A serious explosion of gas occurred in the picker room of the Massachusetts Mills this morning, instantly killing two men—Irish operatives, and badly injuring two others. The walls were partially blown outward, and the waste cotton taking fire, considerable damage was done to the building.

Pittsburg, Dec. 21.

A game of chess between Lewis Paulsen and ten of the Pittsburg chess club opened at 2 o'clock P. M. yesterday and closed at 1 A. M. to-day, Paulsen winning six games and losing four.

Indianapolis, Dec. 21.

The House this morning came short of an absolute majority, required by the Constitution, to pass a bill for the election of U. S. Senators over the veto of the Governor. This renders the election of Senators in place of Bright and Fitch extremely doubtful.

WEDNESDAY MORNING, DEC. 22.

The Assumptionists and the News.

The *News*, which is zealously in favor of the Assumption scheme, repudiates its own logic when it leads to conclusions adverse to that "new way to pay old debts." Thus, when the *News* argued that Railroads were entitled to public aid because they were established for the public good, and we replied that by the same rule plank-roads, mills, hotels, newspapers, &c., had similar claims upon the State credit, the *News* exclaims:

Our neighbor has adopted the sophistical and hackneied argument of the opponents of river and harbor improvements. Its endorsement by a paper in the Seward interest at this time, is significant.

The "sophistical and hackneied argument," was of the *News*' own making. We did but apply it, to show to what extremes it necessarily led. Of course there was not the remotest reference to "river and harbor improvements," nor the slightest analogy between Congressional appropriations for such objects and State assumption of private debts.

To our suggestion, that if the barrier against the creation of a State debt was once removed, there would be no limit to the debt-creating, or debt-assuming policy, the *News* replies:

Our answer to this objection is, that this proposition must be submitted to the people, before any debt can be created. If the people desire to incur any indebtedness, their power to change the constitution is undisputed, and we suppose that with this power conceded, the constitution is not a very formidable barrier after all.

* * * * * * *

The argument that the people will create a debt of twelve millions if they assume this six millions, requires no other answer than this, that the people will do just as they have a mind to about that, whether they assume the six millions or not.

Precisely the same answer holds good in regard to *any* Constitutional "checks," and hence, according to the logic of the *News*, they are and ought to be of no account. For our own part, we believe in limiting the power of the State to contract debts, and we most decidedly object to the repeal of this restriction unless some better reason can be shown for it than any yet urged in favor of the Assumption Scheme.

Finally, the *News* thus pretends to state the question:

Premising that it requires an extraordinary effort to relieve ourselves from our present embarrassment, we favor State Assumption as the most feasible plan yet suggested; while the *Sentinel*, assuming that it is bad policy to create debts, proposes to let those which have already contracted *at its earnest solicitation*, remain unpaid. This is the issue between us, and we desire to have it presented fairly to the people of this State.

Of course, there is no such "issue between us," for the sufficient reason that the *Sentinel* has taken no such ground. We have indeed objected to Assumption by the State of the private debts of Rail Road corporations, municipalities and individuals, but we have never proposed that these debts should "remain unpaid." On the contrary, we have scouted the cry of "Assumption, or Repudiation," set up by the authors of the Scheme, and echoed by the *News*, and have contended all along that the debts could and *would* be paid.

Washington and Buchanan---Republicans vs. Democrats.

In a memorable letter written by George Washington, first President of the United States, to Timothy Pickering, the "Father of our Country" thus expressed his views as to appointments to office:

"With respect for Mr. D—— for the office of Attorney-General, although I have a very good opinion of his abilities, I know nothing in his moral character or connections that is objectionable; yet the reason I assigned when his name was first mentioned me has still weight in my mind—that is, *after a long and severely contested election, he could not obtain a majority of suffrages in the district he formerly represented.* In this instance, then, the sense of his constituents respecting him personally *has been fairly taken*; and one of the charges against me relative to the treaty, you know, is, that I have disregarded the voice of the people, although that voice has never yet been heard, unless the misrepresentation of party, or at best partial meetings, can be called so.

In this refusal to appoint a man otherwise unexceptionable, who had been rejected by his own constituents, President Washington showed a proper deference to the popular will. But President Buchanan thinks it becoming and right to *outrage* public sentiment in the selection of his appointees, and a Democratic Senate aids and abets the wrong. Mr. J. Glancy Jones, the defeated candidate for Congress from old Berks, who was nominated by the President as Minister to Austria, by way of compensation for that defeat, has just been confirmed by the U. S. Senate, the Democratic Senators voting *for*, and the Republicans *against* the nomination. In this vote the Republicans have been true to the traditions of the Government, and have shown their respect for the popular will. The Democrats, as might have been anticipated, outraged both.

A Libellous Attack on Carl Schurz.—The Beaver Dam *Democrat*, a zealous party organ, contains, in its last issue, the following slanderous, unprovoked and wanton attack upon Carl Schurz:

Most foreigners, when they land upon our shores, having before leaving their native land studied our politics, are supporters of democratic principles. There are occasionally exceptions to this rule, men who do not join either party except through interested or mercenary motives. Of this latter class there is now one figuring extensively in Wisconsin politics. He has already gained a great name for splendid talents as an orator and statesman. But instead of being one of those who in his native country panted for the liberty and equality to be enjoyed on these shores, he does not deny that he "left his country for his country's good." Neither did he come here to escape the vengeance of his king. So far from that is the fact that he now rolls in the wealth bestowed upon him by his king for services rendered to that king, and to whom he was a most pliant minion, even to the performance of labors that for his own and the king's safety, he was compelled to make a sudden exit to America. With all his gold, all his splendid talents—this latter we fancy is only an immense gift of gab—the democracy do not want him, as they probably do not stand much chance of having him among their number. No democrat was ever the willing servant of a king. Perhaps it is different with the Republicans, as they have the man—Carl Schurz.

A more absurd and palpable fabrication was never uttered, than that which accuses Carl Schurz of being "the pliant minion" of the King of Prussia, and of his "rolling in wealth, for "services rendered to that King." The *Democrat* has given utterance to a most ridiculous falsehood, and will do wisely to make the earliest and most complete reparation in its power.

Monument to the Signers of the Declaration of Independence.—The Philadelphia *Ledger* states that ten States, the requisite number, have agreed to co-operate, and the proposed monument to the signers of the Declaration of Independence, in Independence Square, in that city, will be erected. The project is now before the Legislatures of North and South Carolina, with every prospect of being favorably responded to.

Meteorology of the Lakes.

Office Survey N. and N. W. Lakes, }
Wayne St., Detroit, Dec. 17, 1858. }

To the Editor of the Detroit Free Press:—Will you do me the favor to make known through the columns of your valuable journal, the fact that the "Survey of the Northern and Northwestern Lakes"—with the charge of which I am honored—has been, and is, collecting the meteorological data so earnestly desired by Lieut Maury, and from which it is hoped that such valuable results may be obtained?

The Lake Survey observers are furnished with a barometer, psychrometer, thermometer, rain-guage, wind-guage, and water-guage. The observations are made four times daily, throughout the year, and are recorded in printed monthly forms, which are transmitted to this office at the end of each month. The stations, when finally occupied, will extend from the east end of Lake Ontario to the west end of Lake Superior, or over the whole Lake region.

These observations are the result of the recommendation contained in the annual report from this office, dated Sept. 19, 1857, and published as part of the Secretary of War's report for that year. The time required to procure the proper instruments, and the engrossing character of other duties on the Survey, have hitherto prevented the occupation of all the stations indicated above; but, being now in possession of the necessary instruments, they are being occupied as rapidly as circumstances will admit. In connection with this subject, it may be of interest to state that I have procured a number of the self-registering water-guages on the ingenious plan of Mr. Saxton, of the U. S. Coast Survey, by means of which a curve is described showing the actual stage of the water, at any instant during the 24 hours.

Having heard the interesting lecture delivered last evening by Lieut. Maury, I feel confident that those who shared with me in that pleasure, as well as the distinguished lecturer himself, will learn with gratification the facts above mentioned.

Very respectfully yours,
GEO. G. MEADE,
Capt. Top'l. Eng'rs.

Louis Napoleon and the Haytiens in Paris.—Faubert, a young man of color from Hayti, obtained the highest prize—the prize of honor—at the concourse of all the colleges in France, held at Paris. On the reception of this news, the Emperor immediately sent him one hundred and fifty handsomely-bound volumes.—A company of National Guards were despatched to wait upon him with a band of music, and he was invited to dine, and did dine with the Minister of Public Instruction, occupying a place between his lady and Prince Napoleon.

Besides this young man, two other young Haytiens also took prizes. In a country like France, of the highest culture, where the course of study is severe, and where *honor* is everything, and the contest for it very great, the achievement does credit to the Haytiens.—*N. Y. Eve. Post.*

Surely there must be some mistake about the above. These "Haytiens" belong to that "inferior race" which Senator Douglas and the Sham Democracy certify to be only fit for slaves. How is it possible, then, that they should bear away the highest prize for intellect and culture from all their "white" competitors? And what a shocking negrophilist the French Emperor must be to allow "colored" students in the Parisian colleges!

The United States and Central America.—The London *Times*, in an article on the newly threatened fillibuster descent upon Central America, says:

Why should America, inhabited by a race which evidently flourishes best in the northern part of the temperate zone, seek to force her way into regions where her sons, if they establish themselves, must become in a few generations enervated and degenerate, and very probably unable to maintain the possessions which they have acquired? A hundred years hence the then people may find emigration, if not a necessity at any rate a convenience; but even then we think they will seek for their new settlements rather in the temperate regions of South America and Northern Asia than in the burning and insalubrious jungles of the tropics. Let America look at our own experience and profit by it. Our colonies in the temperate zone, the States themselves among the number, have been incredibly successful. Within the tropics our success has been much more checkered, and our great tropical empire of Hindoostan is held only at a price of blood, of treasure and of anxiety, which makes us often feel inclined to regret the success of the British fillibusters of the 18th century.

A National Speaker.—Speaker Orr calls himself a "National Democrat. What he understands by that term can be gathered from the manner in which he has constituted the Standing Committees of the House. More than three fifths of the Representatives, it is to borne in mind, are from the North. In any fair distribution of the Committees, of course, this proportion, both as to Chairmen and members in general, would be preserved or nearly so. What are the facts in regard to the appointments of Col. Orr?

Of the eighteen Committees—which are all that have any importance—*fourteen* have Southern Chairmen, and *four* have Chairmen from the North. On every Committee which has any decisive influence upon legislation, the South has *five* members, and the North *four*. Not content with so striking an exhibition of his "nationalism" as he made in his original appointments, this model embodiment of National Democracy has been careful at this session, to fill every vacancy, occasioned by death or retirement, with a Southern appointee.

To the Democrats of the North, we suppose all this appears to be a very good joke. Undoubtedly, they have a huge relish for this sort of "nationality." They cannot but be proud to be connected with a party that knows no North, no East, and no West, that recognizes nothing as national but Slavery, and that regards the chief end of the Federal Constitution to be, the protection of "property in man." Who would forsake this great and glorious party, to join a miserable *sectional* organization?—*Cin. Gaz.*

The Mysteries of Diplomacy.—The New York Express brings together the following newspaper opinions in regard to the motives for the recall of Lord Napier, showing pretty conclusively that very little is really known upon the subject:

"The mystery which envelopes the recall of the British Minister at Washington—or rather the motive for the recall, is getting to be positively distressing. Thus:

The "Albion" (English organ here) says the real reason for his going home, is the delicate condition of Lady Napier's health. "No doubt at all, in respect to that."

"No,"—says a Washington correspondent of the Tribune. That is not it at all. His government recalled him as a mark of disapprobation for his pro-slavery affinities." (!)

And a correspondent of the Boston Advertiser says, very oracularly,—"In those circles where the event is most intelligently discussed, the name of an American Senator (Sumner) now on the continent, is often mentioned as having contributed to the result."

All in the fog again,—for, according to the Palmerston organ in London, the "Morning Post," he is sent for because of his leanings in favor of the Monroe Doctrine.

"Nonsense," chimes in the "Globe,"—His Lordship's recall is in regular course of diplomatic promotion. He is to be transferred to Berlin.

"I know better than that," suggests the Washington correspondent of the Associated Press.—He is not going to Berlin, but to the Hague!

Now, the question is, who is right, and who is wrong? Is Lord Napier going home, or not? Is "his going" voluntary or involuntary? Is he going at all? Who knows? Does anybody know?

Anniversary of the Destruction of Tea.—To-day, Dec. 16, is the anniversary of the destruction of English tea in Boston harbor in 1773, just eighty-five years ago. The *Post* thus describes the scene:

"A great concourse lined the wharves near the tea ships, while, for three hours, the tea was canted into the harbor; not in the spirit of revenge—not as a work of sedition, but "with order and discretion," in the words of Josiah Quincy, Jr. Then the whole land throbbed as with the instinctive of a great deliverance! Let John Adams describe the deed in words that glow with the exuberance of the sons of liberty. Let it be remembered that he did not attend a town meeting before 1774, and had nothing to do with the tea party: This is the most magnificent move of all. There is a dignity, a majesty, a sublimity, in this last effort of the patriots that I greatly admire. This destruction of the tea is so bold, so daring, so firm, intrepid and inflexible, and it must have so important consequences, that I cannot but consider it an epoch in history."—*Boston Traveller, Dec. 16.*

Washington and Jefferson's "Blood-Thirsty" Heresies.

Fifty years ago, Washington and Jefferson uttered sentiments of the same "blood-thirsty" character of those recently uttered by Gov. Seward. But those who denounce the latter as a "fanatic" and "traitor," have not yet had the courage or impudence to apply those epithets to the former. It might be hazardous, just yet, to attempt to blacken the memory of "the Father of his Country;" while Democracy must, for a while longer, use the name of Jefferson as a partisan prop. But the day is coming when even these great names will be assailed because of the noble sentiments they have left on record, just as the time *has come* when, for that reason, the Declaration of Independence is sneered at as a mere string of "glittering generalities."

The Springfield *Republican* thinks that Jefferson was quite as much of a "fanatic" as Seward on the Slavery question, though it requires the advanced civilization of the last half of the nineteenth century to detect the fact.—Singularly similar to Mr. Seward's idea of the incompatibility of Slavery and Freedom in this country as developed in his Rochester speech, and now forming the staple of Democratic political capital against the Republicans, are these views from Mr. Jefferson's letters:—

"Nothing is more certainly written in the book of fate, than that these people are to be free; nor is it less certain that the two races, equally free, cannot live in the same government. Nature, habit, and opinion have drawn indelible lines of distinction between them. It is still in our power to direct the process of emancipation and deportation peaceably, and in such slow degree as that the evil will wear off insensibly, and their place be, *parri passu filled up with free white laborers.* If, on the contrary, it is left to force itself on, human nature must shudder at the prospects held up."

And the following extract from a letter addressed by President Washington to Gen. Lafayette, in 1798, also shows that Senator Seward cannot claim entire originality for his alarming doctrines:

"I agree with you cordially in your views in regard to negro slavery. I have long considered it a most serious evil, both socially and politically, and I should rejoice in any feasible scheme to rid our States of such a burden.

The Congress of 1787 adopted an ordinance which prohibits the existence of involuntary servitude in our north-western territory forever. I consider it a wise measure. It met with the approval and assent of nearly every member of the States more immediately interested in slave labor. The prevailing opinion in Virginia is against the spread of slavery into the territories, and *I trust we shall have a confederacy of Free States.*"

We should like to have some of our Democratic friends tell us the difference between the sentiments of Mr. Seward, and those quoted from these two noble "Fathers of the Republic."—*Albany Evening Journal.*

Mining.—We continue to hear favorable reports from every mining place in the County.—The discovery of lodes, yielding 100,000 lbs. and upwards, is of such frequent occurrence as to scarcely attract attention, or be worth noticing by news paragraph. The number of persons working at mining has steadily increased for a year, or ever since the commencement of the crisis, and now exceeds we think the number engaged just previous to '52, when California drew away some 7 or 800 of our miners, generally the most successful and enterprising of them. The number of miners and product of mineral raised at present, with the value thereof, must be very great.

But what makes mining far more profitable now than under the old practice, is, that gambling, fighting and quarreling, and the support of about two doggeries to every five miners are scarcely known as necessary accompaniments of mining, as now conducted. High taxes are the modern substitutes for those evils of a worse day. The present race of miners are principally the old stock of farmers and their sons, whose responsibility and conduct have weight enough to keep them quiet and prudent. At present, the mining towns are therefore as quiet as the moral towns, and owing to the failure of crops and low prices, are far more prosperous.

We again urge upon men out of regular employment to resort to digging. Those who have never mined may look upon digging for mineral as a hard business, but this is a mistake. It is not as hard work as farming, and is equally as heathful, while the profits are certainly in favor of mining—very largely as the times stand.—Indeed, it appears to us as the duty of men to give more attention to mining than they do.—To make money at farming is almost impossible now, while the chances to make good day wages, perhaps a little fortune, at digging, are quite fixed. A sober, industrious miner with a partner his equal, can make money. The business, to be sure, involves bad luck as well as good, but most of the chances are on the winning side.—*Grant Co. Herald, Dec. 10.*

A Dead Cock in the Pit.—Such, we imagine is the opinion that will be expressed by all if asked the prospects of the Assumption Scheme. It will not win. It possesses so many absurdities upon its face, it is designed to assist men who have so openly forfeited all public confidence, it is defended by so weak arguments, that we see no chance for its prevailing either with the Legislature or the people.

We are still of opinion that some relief should be afforded to those who have been abused in so rascally a manner by the railroad companies, but the relief is not to be, and cannot be, in the form of State Assumption. When one man is asked to pay another man's debts some cogent reason is necessary to prevail upon him to do it. But in this case every reason urged is only an additional argument in favor of making the railroads pay their own debts, or suffer the consequences.

The scheme is so absurd and unjust—it is so unequal and impracticable, that we do not see how it can obtain any favor at all. If the State is to assume the debt of a man who has mortgaged a farm for one purpose, why not assume the debt of all men who have mortgaged their farms for any purpose. If the debts which cities have contracted to build railroads are to be assumed, why not assume the debts of cities who have borrowed money to grade streets and construct bridges.

In short, no reason exists for assuming railroad debts that do not exist for assuming all other classes of indebtedness. When that proposition is made, we may be induced to favor it. —*Madison Argus*, (*dem.*)

Grain Elevator.—Two gentlemen from Milwaukee, one of them a member of the firm of Angus Smith & Co, were in our city Thursday last, with a view to making arrangements for the construction of a grain elevator, to transfer wheat from barges to the cars. The elevator—should they conclude to go on with it—will front on the railroad track and river, and will enable buyers in McGregor, Wyalusing, Clayton, Nezeka, Johnsonsport, Harper's, Lansing, and other points that may be tributary to the M. & M. R. R., to ship their wheat in *bulk*, saving bagging and expense in handling.—*Prairie du Chien Leader.*

Weakness of the Stomach and Indigestion. Another Great Cure Effected by Boerhave's Holland Bitters.—The wife of Pieter De Witte, living in Holland Town, Sheboygan county, Wisconsin, suffered much from Weakness of the Stomach and Indigestion. She had been under a physician's care for some time, but the disease seemed to baffle even his skill. She purchased some HOLLAND BITTERS at our office, which has given tone to her stomach; her appetite and strength are returning, and we firmly believe that this is another great cure effected by your medicine.

We have still to record many wonderful cures effected by this remedy, but must wait another opportunity. One thing you can rely upon, what we have published are from persons much respected in our community, and are literally true. J. QUINTUS,

TO THE PUBLIC.

In answer to the numerous letters addressed to me on the subject of the Mustang Liniment, I would say that I have had no connection with that article for several years. It was invented by me, and while not up under my control and supervision, was universally accepted by the public, as the best liniment in the world. In 1854 I sold out my interest in it to other parties, and since that time it has passed through the hands of several persons most of whom have been so unscrupulous as to manufacture it of inferior and cheaper articles, and thus to entirely destroy its value as a medical remedy, trusting for success in selling to its former highly established reputation. Its present proprietors have gone so far as to substitute other articles in its composition for those in the original prescription, so that the Mustang Liniment now vended possesses no one of the distinguishing characteristics of the genuine article, as it was originally invented and manufactured by me. These parties, to enable themselves with more facility to foist their worthless and injurious article on the public, use *my name* as its inventor, calling it "Bragg's" Mustang Liniment, and cautioning the public to beware of any other Bragg's Liniment as an imposition. This is done with a view of exciting a prejudice against "BRAGG'S ARCTIC LINIMENT," an article more recently invented by me, and possessing all the virtues of the original Mustang, with some improvements—the result of experience and later discoveries—and manufactured by Bragg & Burrowes, which firm is composed of my son, Oliver T. Bragg, and Michael Burrowes. This article is superior in many respects to the Mustang, when it was put up pure and in good faith, and is immeasurably superior to the article now vended as the Mustang Liniment. It is also the only liniment manufactured to which my name is appended by my authority or consent. In conclusion, I cannot hold myself responsible for any of the evil results of using the Mustang Liniment now vended, and especially after this public disclaimer of any connection with its proprietorship or manufacture.

Respectfully, A. M. BRAGG, M. D.

AYER'S CATHARTIC PILLS.

THE following remedies are offered to the public as the best, most perfect, which medical science can afford. AYER'S CATHARTIC PILLS have been prepared with the utmost skill which the medical profession of this age possesses, and their effects show they have virtues which surpass any combination of medicines hitherto known. Other preparations do more or less good; but this cures such dangerous complaints, so quick and so surely, as to prove an efficacy and power to uproot disease beyond anything which men have known before. By removing the obstructions of the internal organs and stimulating them into a healthy action, they renovate the fountains of life and vigor—health courses anew through the body, and the sick man is well again. They are adapted to disease, and disease only, for when taken by one in health they produce little effect. This is the perfection of medicine. It is antagonistic to disease, and no more. Tender children may take them with impunity. If they are sick they will cure them, if they are well they will do them no harm.

Give them to some patient who has been prostrated with bilious complaint; see his bent-up, tottering form straighten with strength again; see his long-lost appetite return; see his clammy features blossom into health. Give them to some sufferer whose foul blood has burst out in scrofula till his skin is covered with sores; who stands, or sits, or lies in anguish. He has been drenched inside and out with every potion which ingenuity could suggest. Give him these PILLS and mark the effect; see the scabs fall from his body; see the new, fair skin that has grown under them; see the late leper that is clean. Give them to him whose angry humors have planted rheumatism in his joints and bones; move him, and he screeches with pain; he too has been soaked through every muscle of his body with liniments and salves; give him these PILLS to purify his blood; they may not cure him, for, alas! there are cases which no mortal power can reach; but mark, he walks with crutches now, and now he walks alone; they have cured him. Give them to the lean, sour, haggard dyspeptic whose knawing stomach has long ago eaten every smile from his face and every muscle from his body. See his appetite return, and with it his health; see the new man. See her that was radiant with health and loveliness blasted and too early withering away; want of exercise, or mental anguish, or some lurking disease has deranged the internal organs of digestion, assimilation, or secretion, till they do their office ill. Her blood is vitiated, her health is gone. Give her these PILLS to stimulate the vital principle into renewed vigor, to cast out the obstructions, and infuse a new vitality into the blood.—Now look again—the roses blossom on her cheek, and where lately sorrow sat joy bursts forth from every feature. See the sweet infant wasted with worms. Its wan, sickly features tell you without disguise, and painfully distinct, that they are eating its life away. Its pinched up nose and ears, and restless sleepings, tell the dreadful truth in language which every mother knows. Give it the PILLS in large doses to sweep these vile parasites from the body. Now turn again and see the ruddy bloom of childhood. Is it nothing to do these things? Nay, are they not the marvel of this age? And yet they are done around you every day.

BOERHAVE'S

HOLLAND BITTERS.

THE CELEBRATED HOLLAND REMEDY FOR

DYSPEPSIA,

DISEASE OF THE KIDNEYS,

LIVER COMPLAINT,

WEAKNESS OF ANY KIND,

FEVER AND AGUE,

And the various affections consequent upon a disordered

STOMACH OR LIVER,

Such as Indigestion, Acidity of the Stomach, Colicky Pains, Heartburns, Loss of Appetite, Despondency, Costiveness, Blind and Bleeding Piles. In all Nervous, Rheumatic and Neuralgic Affections, it has in numerous instances proved highly beneficial, and in others effected a decided cure.

This is a purely vegetable compound, prepared on strictly scientific principles, after the manner of the celebrated Holland Professor, Boerhave. Its reputation at home produced its introduction here, the demand commencing with those of the Fatherland scattered over the face of this mighty country, many of whom brought with them and handed down the tradition of its value. *It is now offered to the American public, knowing that its truly wonderful medicinal virtues must be acknowledged.*

It is particularly recommended to those persons whose constitutions may have been impaired by the continuous use of ardent spirits, or other forms of dissipation. Generally instantaneous in effect, it finds its way directly to the seat of life, thrilling and quickening every nerve, raising up the drooping spirit and infusing new health and vigor in the system.

READ CAREFULLY! The Genuine highly concentrated Boerhave's Holland Bitters is put up in half-pint bottles only, and retailed at ONE DOLLAR per bottle. The great demand for this truly wonderful Medicine has induced many imitations, which the public should guard against purchasing.

Beware of Imposition! See that our name is on the label of every bottle before you buy.

THE LIVER

INVIGORATOR!

PREPARED BY DR. SANFORD,

COMPOUNDED ENTIRELY FROM GUMS,

IS one of the best purgative and liver medicines now before the public, that acts as a *Cathartic*, easier, milder and more effectual than any other medicine known. It is not only a *Cathartic*, but a *Liver remedy*, acting first on the *Liver* to eject its morbid matter, then on the stomach and bowels to carry off that matter, thus accomplishing two purposes effectually, without any of the painful feelings experienced in the operations of most *Cathartics*. It strengthens the system at the same time that it purges it; and when taken daily in moderate doses, will strengthen and build it up with unusual rapidity.

The LIVER is one of the principal regulators of the human body; and when it performs its functions well the powers of the system are fully developed. The stomach is almost entirely dependent on the healthy action of the *Liver* for the proper performance of its functions; when the stomach is at fault, the bowels are at fault, and the whole system suffers in consequence of one organ—the Liver—having ceased to do its duty. For the diseases of that organ one of the proprietors has made it his study, in a practice of more than twenty years, to find some remedy wherewith to counteract the many derangements to which it is liable.

To prove that this remedy is at last found, any person troubled with LIVER COMPLAINT, in any of its forms, has but to try a bottle, and conviction is certain.

These Gums remove all morbid or bad matter from the system, supplying in their place a healthy flow of bile, invigorating the stomach, causing food to digest well, PURIFYING THE BLOOD, giving tone and health to the whole machinery, removing the cause of the disease, effecting a radical cure.

BILIOUS ATTACKS are cured, AND WHAT IS BETTER, PREVENTED, by the occasional use of the LIVER INVIGORATOR.

One dose after eating is sufficient to relieve the stomach and prevent the food from rising and souring.

Only one dose taken before retiring, prevents NIGHTMARE.

Only one dose taken at night, loosens the bowels gently, and cures COSTIVENESS.

One dose taken after each meal will cure DYSPEPSIA.

One dose of two teaspoonfuls will always relieve SICK HEADACHE.

One bottle taken for female obstruction removes the cause of the disease, and makes a perfect cure.

Only one dose immediately relieves CHOLIC, while

One dose often repeated is a sure cure for CHOLERA MORBUS, and a preventive of CHOLERA.

Only one bottle is needed to throw out of the system the effects of medicine after a long sickness.

One bottle taken for JAUNDICE removes all sallowness or unnatural color from the skin.

One dose taken a short time before eating gives vigor to the appetite, and makes food digest well.

One dose often repeated cures CHRONIC DIARRHŒA in its worst forms, while SUMMER and BOWEL complaints yield almost to the first dose.

One or two doses cures attacks caused by WORMS in Children; there is no surer, safer, or speedier remedy in the world, as it never fails.

A few bottles cures DROPSY, by exciting the absorbents.

We take pleasure in recommending this medicine as a preventive for FEVER AND AGUE, CHILL FEVER, and all FEVERS of a BILIOUS TYPE. It operates with certainty, and thousands are willing to testify to its wonderful virtues.

ALL WHO USE IT ARE GIVING THEIR UNANIMOUS TESTIMONY IN ITS FAVOR.

MIX WATER IN THE MOUTH WITH THE INVIGORATOR, AND SWALLOW BOTH TOGETHER.

THE LIVER INVIGORATOR

IS A SCIENTIFIC MEDICAL DISCOVERY, and is daily working cures almost too great to believe. It cures as if by magic, *even the first dose giving benefit*, and seldom more than one bottle is required to cure any kind of LIVER Complaint, from the worst *Jaundice* or *Dyspepsia* to a common *Headache*, all of which are the result of a DISEASED LIVER.

PRICE ONE DOLLAR PER BOTTLE.

A Card from Dr. James M. Jarrett,

OF THE NEW YORK LUNG INFIRMARY.—My connection for the past eight years with the above Institution, as Chief Physician, and a twelve years' course of steady devotion to the cure of Pulmonary Consumption and its kindred diseases, together with my unrivalled opportunities and advantage of pathological research—aided not a little by a perfect system of *Medical Inhalation*—has enabled me to arrive at a decisive, direct, and successful course of treatment for the positive cure of all diseases of the *Throat, Lungs*, and *Air-Passages*. By Inhalation, the vapor and curative properties of medicines are directly addressed to the diseased organs and the integument. I do not advise the use of Medical Inhalation of any kind, to the exclusion of *general treatment*; and although I consider it a useful adjuvant in the proper management of those fearful and often fatal diseases, yet I deem it very necessary that each patient should have the benefit of both *general* and local treatment. The success of my treatment, in the above diseases, and the high character of the Institution over which I have so long had the honor to preside, are too well known to need any eulogy or comment from me. At the solicitation of many private and professional friends, through whose philanthropic aid the above charity has been long and liberally supported, after due consideration, I have concluded to make such arrangements as will bring benefits of my experience and treatment within reach of all, and not to confine myself, as heretofore, to those only who entered the Infirmary, or who were able to visit *me* at my office. Hoping therefore that the arrangement will give entire satisfaction, both to my professional brethren and the public, I would respectfully announce in conclusion, that *I can now be consulted personally or by letter*, on all diseases as above, and that the medicines, the same as used in the Institution, prepared to suit each individual case. *Inhaling Vapors, Medical Inhalers, &c., &c.*, will be forwarded to any part of the United States or the Canadas. TERMS—My terms for treatment by letter are as follows, viz: $12 per month for each patient, which will include medicine sufficient for one month's use; also, Inhaling Vapor, and an Inhaling Apparatus. Payment as follows: $6 to be paid to Express Agent on receipt of the box of Medicine, and the balance $6 at the expiration of the month, if the patient be cured or is entirely satisfied with the treatment. Patients, by giving a full history of their case, and their symptoms in full, can be treated as well by letter as by personal examination. Patients availing themselves of Dr. Jarrett's treatment may rely upon immediate and permanent relief, as he seldom has to treat a case over thirty days. Letters for advice promptly answered. For further particulars address JAMES M. JARRETT, M. D.,

No. 620 Broadway, cor. Twelfth st., N. Y.

P. S.—Physicians and others visiting the city are respectfully invited to call at the Infirmary, where many interesting cases can be witnessed, and where our *improved apparatus* for the inhalation of medicated vapor can be seen and inspected. sep2h1405-mo

COMMERCIAL & FINANCIAL.

OFFICE OF THE DAILY SENTINEL, Tuesday Evening, Dec. 21, 1858.

Commercial.—The improvement in prices of wheat does not seem to induce holders in the interior to send forward their grain to any considerable extent, as may be inferred from our daily table of receipts. Yesterday's prices were easily obtained to day for good samples of spring wheat, the demand for winter being confined to the millers, the very high prices paid during the past two or three days could not, however, be realized. We repeat the quotations given in our last, for flour and most other articles.

In the hog market we note a continued buoyancy in prices, with a very material falling off in receipts, the aggregate to-day being only about 200 head. The sales show the same range in prices as given yesterday, viz: $5a$5,50 for light, and $5,75a$6 for heavy hogs. Buyers however, were not particular in regard to weights, and some lighter lots sold at an improvement of 12a15c on yesterday's figures. The receipts to-day are:

By M. & M. R R	69 head.
By L. C. & M. R. R	106 do
By M. W. B., V. R. R.	10 do
By M & H. R. R.	21 do
Total	206 do
Before reported	21,164 do
Rec'd thus far this season	21,870 do

There is no change in provisions, and we hear of no sales of importance to-day. Mess pork is held firmly at $15,50.

The following are the principal receipts by Railroad to-day:

Flour, bbls	548	Grass seed, bus	59
Wheat, bus	5,249	Hides, lbs	9,54
Barley, bus	446	Dressed hogs	206
Rye, bus	46	Cranberries, bbls	46
Corn, bus	157	Pork bbls	8
Oats, bus	2,772	Highwine, bbls	20

Received by Mil. & Miss. R. R., Dec. 21.—2,761 bus wheat, 14 bus corn, 154 bbls flour, 109 bus barley, 69 hogs, 1,658 lbs hides, 8 bbls pork, 20 bbls highwine, 1,710 lbs sundries.

La Crosse & Milwaukee R. R., Dec. 21.—212 bbls flour, 405 bus wheat, 1,590 bus oats, 105 bus barley, 118 bus corn, 56 bus rye, 2,3?1 lbs hides, 11,544 lbs sundries, 106 dressed hogs, 63 empty barrels, 35 bbls cranberries, 8 sacks do.

Mil. Wat. & B. V. R. R., Dec. 21—1,602 bus wheat, 114 bbls flour, 10 hogs, 760 bus oats, 3,046 lbs hides, 150 lbs sundries, 59 bus grass seed, 289 bus barley.

Milwaukee & Horicon R. R., Dec. 21.—431 bush wheat, 422 bus oats, 100 lbs hides, 76 bbls flour, 11 bbls cranberries, 1 box do, 2 bbls poultry, 2 bags do, 21 dead hogs, 200 lbs sundries.

The *Gazette*, of yesterday, has the following remarks respecting Saturday's market for hogs and provisions at Cincinnati:

The receipts of hogs were light again on Saturday, comprising only 4,000 head, and the market in consequence gained additional strength; but, as was the case on Friday, the buoyancy was more on the part of sellers than buyers. The latter, though generally in the current, did not exhibit any great degree of anxiety to operate. The offerings, however, were light, and holders were firm at full prices. The sales were confined to:

640 head, averaging 221 lbs, at $5,25 gross.
100 do do 173 do 6 40 net.
600 do dividing on 200 lbs, at 6,75a$7.

The market closed firm at $6,75a$7 for hogs averaging 100 lbs and upward, and it is now almost up, both as regards price and spirit, to the highest point, previously attained. The scale however, is very easily balanced, and its support is quite unsteady. Heavy receipts for one day would change the whole aspect of the trade.

Provisions were held with more firmness, but the movements of buyers did not correspond with the improvement in feeling. Holders of mess pork were firm at $17,50 on the spot, with sales of 500 bbls. About 2,000 bbls sold for February and March at $18. At the close there were more sellers than buyers at this figure.

The *Press & Tribune* of to-day, speaks as follows of the Chicago hog market:

The receipts of hogs to-day were very light—as is usual on Mondays. Early in the morning, the packers were in the market and before noon all the choice lots of dressed were bought at an advance of 15c on Saturday's prices. Hogs weighing 240 lbs up to 250, were sold at $6, and those weighing over that were sold at $6,12a6,25. There were no live hogs received, and we have but one sale to report at $4,65 gross—averaging 241 lbs.

MORE TO BE ADMIRED THAN THE RICHEST DIADEM EVER Worn by Kings or Emperors. WHAT? WHY A BEAUTIFUL HEAD OF HAIR.
Because it is the ornament *God Himself* provided for all our race. Reader, although the rose may bloom ever so brightly on the glowing cheek, the eye be ever so sparkling, the teeth be those of pearls, if the head is bereft of its covering, or the hair be snarled and shriveled, *harsh and dry*, or worse still, if sprinkled with gray, nature will lose more than half her charms. Prof. Wood's Hair Restorative, if used two or three times a week, will restore and permanently secure to all such an ornament. Read the following and judge. The writer of the first is the celebrated Pianist, Thalberg:
Dr. Wood:— New York, April 19th, 1858.
Dear Sir: Permit me to express to you the obligation I am under for the entire restoration of my hair to its original color. About the time of my arrival in the United States it was rapidly becoming gray, but upon the application of your Hair Restorative, it soon recovered its former hue. I consider your Hair Restorative as a very wonderful invention—quite efficacious as well as agreeable. I am, dear sir, yours truly, S. THALBERG.
"Drych a'r Gwyliedydd." Welsh Newspaper Office, 118 Nassau st., April 12, 1858.
Prof. O. J. Wood—*Dear Sir:* Some month or six weeks ago I received a bottle of your Hair Restorative and gave it to my wife, who concluded to try it on her hair, little thinking at the time that it would restore the gray hair to its original color; but to her, as well as my surprise, after a few weeks' trial it has performed that wonderful effect by turning all the gray hair back to brown, at the same time beautifying and thickening the hair. I strongly recommend the above Restorative to all persons in want of such a change in their hair. CHARLES CARDEW.
New York, July 25, 1857.
Prof. O. J. Wood: With confidence do I recommend your Hair Restorative, as being a most efficacious article I ever saw. Since using your Hair Restorative my hair and whiskers, which were almost white, have gradually grown dark; and I now feel confident that a few more applications will restore them to their natural color. It has also relieved me of all dandruff and unpleasant itching, so common among persons who perspire freely. J. G. KILBY.
Prof. Wood—About two years ago my hair commenced falling off and turning gray; I was fast becoming bald, and had tried many Remedies to no effect. I commenced using your Restorative in January last. A few applications fastened my hair firmly. It began to fill up, grew out, and turned back to its former color, black. At this time it is fully restored in its original color, health and appearance, and I cheerfully recommend its use to all. J. D. HOES.
Chicago, Ill., May 1, 1857.
The Restorative is put up in bottles of 3 sizes, viz: large, medium and small; the small holds ½ a pint, and retails for one dollar per bottle; the medium holds at least 20 per cent more in proportion than the small, retails for two dollars per bottle; the large holds a quart, 40 per cent more in proportion, and retails for $3.

MEDICAL.

THE GREATEST MEDICAL DISCOVERY OF THE AGE.
MR. KENNEDY, of Roxbury, has discovered in one of our common pasture weeds a remedy that cures EVERY KIND OF HUMOR, FROM THE WORST SCROFULA DOWN TO A COMMON PIMPLE.
He has tried it in over eleven hundred cases, and never failed except in two cases, both thunder humor. He has now in his possession over one hundred certificates of its value, all within twenty miles of Boston.
Two bottles are warranted to cure a nursing sore mouth.
One to three bottles will cure the worst kind of pimples on the face.
Two or three bottles will clear the system of biles.
Two bottles are warranted to cure the worst canker in the stomach.
Three or five bottles are warranted to cure the worst kind of Erysipelas.
One to two bottles are warranted to cure all humor in the eyes.
Two bottles are warranted to cure running of the ears and blotches among the hair.
Four to six bottles are warranted to cure corrupt and running ulcers.
One bottle will cure scaly eruptions of the skin.
Two or three bottles are warranted to cure the worst kind of ringworm.
Two or three bottles are warranted to cure the most desperate case of rheumatism.
Three or four bottles are warranted to cure salt rheum.
Five to eight bottles will cure the worst case of scrofula.
A benefit is always experienced from the first bottle, and a perfect cure is warranted when the above quantity is taken.
Roxbury, Mass.
Dear Madam:—The reputation of the Medical Discovery, in curing all kinds of humors, is so well established, by the unanimous voice of all who have ever used it, that I need not say anything on the subject, as the most skillful physicians and the most careful Druggists in the country are unanimous in its praise.
In presenting the Medical Discovery to your notice, I do it with a full knowledge of its curative powers, in relieving all, and curing most of the diseases to which you are unfortunately liable. That most excruciating disease to an affectionate mother, NURSING SORE MOUTH, is cured as if by a miracle; your own temper is restored to its natural sweetness, and your babe from short and fretful naps to calm and sweet slumbers; and the Medical Discovery becomes a fountain of blessings to your husband and household.
In the more advanced stages of CANKER it extends to the stomach, ensuring DYSPEPSIA which is nothing but canker on the stomach; then to the intestines and KIDNEYS creating a sinking, gone feeling, and an indifference even to the cares of your family. Your stomach is RAW AND INFLAMED, your food distresses you, and you can only take certain kinds, and even of that your system does not get half the nourishment it contains, as the acrimonious fluid of the canker eats it up; then your complexion loses its bloom and becomes sallow or greenish, and your best day is gone. For want of nourishment your system becomes loose and flabby, and the fibres of your body become relaxed. Then follow a train of diseases which the Medical Discovery is peculiarly adapted to CURE; Palpitation of the heart, pain in the side, weakness of the spine and small of the back, pain of the hip-joint when you retire, irregularity of the bowels, and also, that most excruciating of diseases the PILES.
How many thousands of poor women are suffering from this disease and pining away a miserable life, and their next door neighbor does not know the cause. I wish to impress on your mind that good old proverb, "an ounce of prevention is better than a pound of cure." In the MEDICAL DISCOVERY you have both the preventative and the cure, with this great and good quality, that it will never, under any circumstance, do you an injury. Yours truly, DONALD KENNEDY.
For sale by all Druggists in Milwaukee, and by Druggists generally throughout the Western States. Price $1,00 per bottle.

A NEW CONTRIBUTION TO SCIENCE THE GREAT GRAND DISCOVERY. R. R. R. (No. 3.) RADWAY'S REGULATING PILLS.
Dr. Radway & Co. have recently discovered a method for extracting from roots, herbs, plants and gums a nutritious extract of such wonderful nourishing power—which they have combined with Radway's Regulating Pills—that six of these pills will supply the blood with the same amount of nutrition as one ounce of ordinary bread; so that while the system is undergoing a thorough physicing, and regulating process, it daily becomes strengthened.
Persons afflicted with Liver Complaint, Dyspepsia, Heart Diseases, Fullness of Blood, and all Females who are subject to Irregularities, Hysteria, &c., are particularly recommended to use these Pills. They are pleasant to take—elegantly coated with gum—free from taste and will not gripe, sicken or weaken the system, or leave the bowels costive. Mothers nursing should likewise take one or two of these Pills once or twice per week. They will not only keep your system healthy and regular, but will protect your infants against Cramps and Pains in the stomach, and insure not only a healthy child, but will invest every child, thus suckled, with a sweet disposition.
RADWAY'S REGULATING PILLS Regulate each and every organ of the system, and correct all derangements of the Liver, Bowels, Stomach, Heart and Kidneys.
THEY CURE
COSTIVENESS, HEARTBURN, BILIOUSNESS, DROPSY, PALPITATION OF THE HEART, INDIGESTION, DYSPEPSIA, CONSTIPATION, HEADACHE, CONGESTION, &c., &c., &c.
